PRORATED TO COMPENSATE FOR COMPONENT FAILURES

Prorated agreement is included in the Premium service agreement to partially compensate for the costs of parts and labor not included in the service agreement. The compensation rate depends on the machine operating hours, and it may even be up to 100 percent.

Contact your local John Deere Forestry dealer for Prorated details and availability.

BE PREPARED FOR THE UNEXPECTED WITH AN EXTENDED WARRANTY

Forest machines work in demanding conditions. The machines are maintained and serviced on a regular basis, but the risk of component failures still exists. A John Deere Extended Warranty agreement can be added to an existing service agreement to cover component failures not covered by the service agreement. The extended warranty comes into effect when the basic warranty ends.

John Deere offers these extended warranties:

- Comprehensive coverage for the entire machine
- Powertrain and hydraulics coverage
- Harvester head coverage
